Unlike other systems, you will not need any additional or special electrical components such as feeders, connectors, corners or T-connectors for the recessed tracks in the future. All standard components of the system are used and only the matching plastic cover is exchanged, and the recessed version is ready. This simplifies stock-keeping and gives significantly more flexibility here as well.

PLANNING GUIDE D LINE MOUNTING POWER RAIL SYSTEM 3-PHASE 220-440V

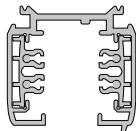

D LINE POWER RAIL SYSTEM 3-PHASE 220-440V

The D LINE track system is available exclusively from DEKO-LIGHT and is extremely easy to plan and install thanks to its components, some of which have been completely redesigned. It is also compatible with all common track adapters and luminaires. The elegant and timeless design is available in white, black and grey, and the wide range

of accessories and mounting components means that there are no limits to its use and installation. Thanks to the interchangeable mechanism of the 90° and T connectors, planning is easier than ever before and the installation of even complex shapes will be child's play in the future.

COMPATIBILITY OVERVIEW

D LINE 3-phase track is compatible with the following track lights / adapters:

manufacturer	system name
DEKO-LIGHT	all 3-phase spotlights
Molto Luce	3-Phase-Track*
Global / Nordic	Trac Pro 3*
Ivela	LKM Square / Quadro*
Erco	3-Phasen*
Hoffmeister	3-Phasen*
Zumtobel / Staff	3-Phasen*
Eutrac	One Track*
SLV	S-Track

*compatible with all DEKO-LIGHT 3-phase spotlights, except ALNITAK series [S. 101] and 3-phase adapter with integrated multi-CC power supply [S. 63].

All data without guarantee. Technical data and dimensions are subject to change without prior notice. Check against samples when planning a project to ensure functionality.

This little »jack-of-all-trades« makes mounting a track on an existing grid ceiling child's play. The installation time is only a fraction of what it used to be. In the first step, the clip is simply clicked into the visible metal strips of the grid ceiling and is held bomb-proof on the ceiling by means of a safety spring clip. After that, the conductor rail is simply pushed onto it and the installation is finished.
